## Where Craftsmanship Meets Durability

The Endgrain Collection by Floor Gallery celebrates the timeless beauty and exceptional durability of cross-cut wood. Featuring a selection of premium wood species, including oak, smoked oak, pine, spruce, larch, and smoked larch, this collection is designed to bring unique character and warmth to both residential and commercial interiors. Delivered raw and untreated, the Endgrain Collection offers unmatched customization, with optional pre-oiling available to enhance durability and highlight the natural beauty of the wood.

With its high abrasion and pressure resistance, the Endgrain Collection is ideal for high-traffic areas while maintaining an aesthetic appeal that complements any design vision. Available in various dimensions and finishes, it adapts effortlessly to a range of spaces. Backed by FSC and PEFC certifications, the collection supports responsible sourcing and sustainability, making it the perfect choice for those who value both craftsmanship and environmental responsibility.

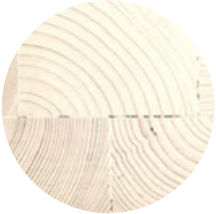

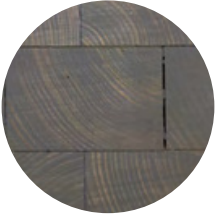

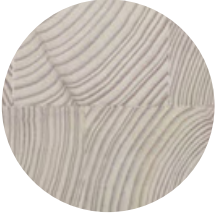

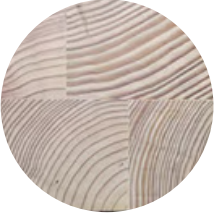

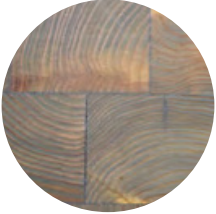

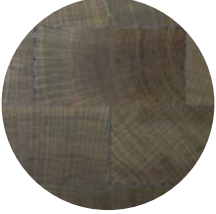

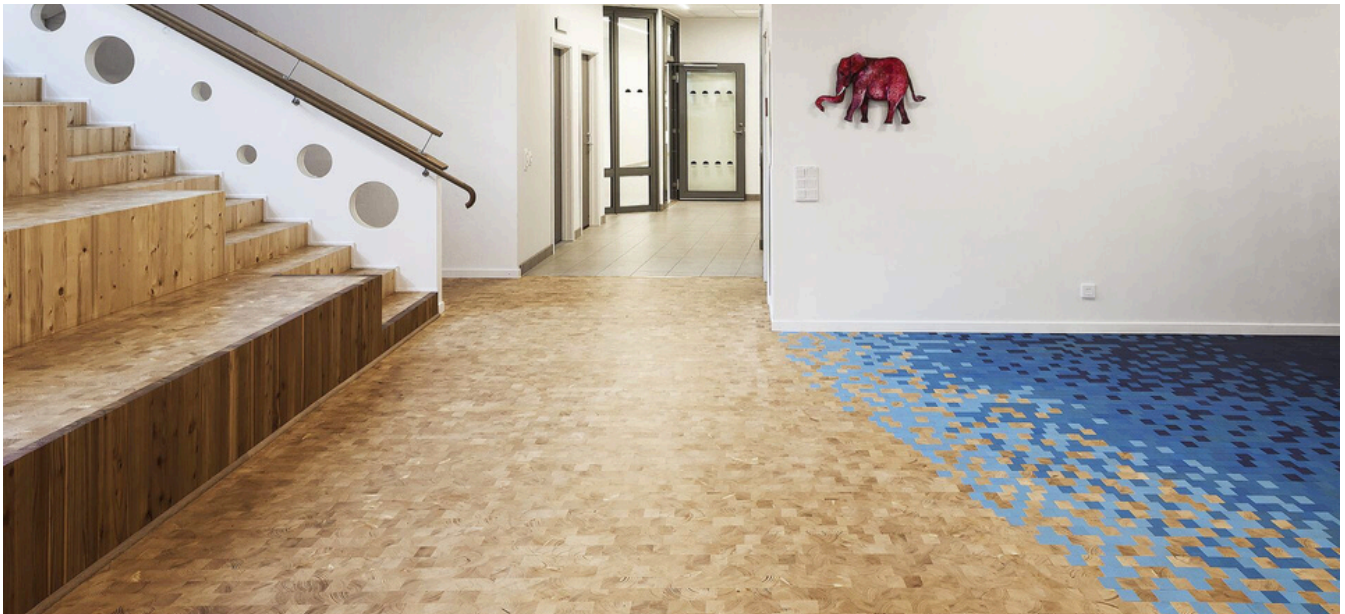

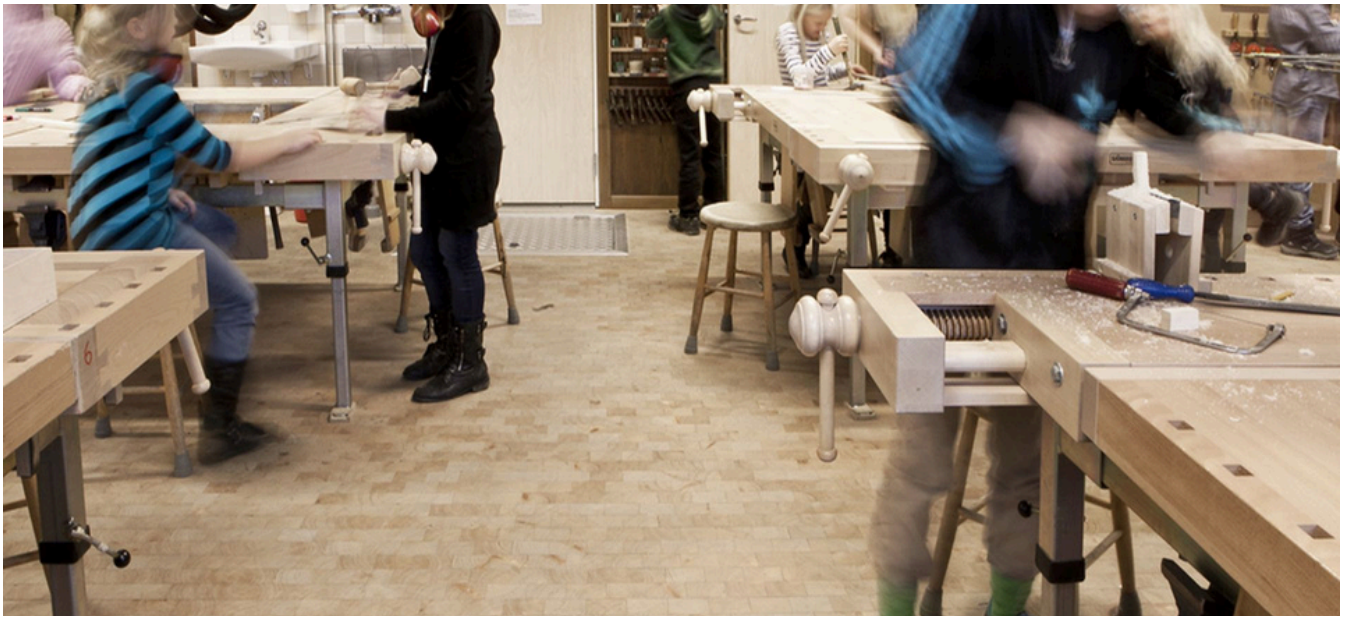

Oak Fashion

The Endgrain Collection stands out with its unique annual ring patterns and natural textures, offering a distinctive look for both traditional and contemporary designs. The material provides high durability, making it ideal for high-traffic areas, while its acoustic properties reduce noise and improve the environment's comfort. The flooring also delivers excellent thermal insulation and fire resistance, combining functionality with elegance. Its easy maintenance and long lifespan make it an economically attractive choice for various applications.

# Versatile *APPLICATIONS*

The versatility of the Endgrain Collection makes it suitable for a wide range of spaces. In residential areas, it creates warm, comfortable environments with a natural aesthetic. In public spaces like museums and hotels, its durability and noise-reducing properties enhance the experience for visitors. Workspaces benefit from improved acoustic comfort and durability under mechanical loads, while industrial settings can take advantage of the flooring's ability to withstand heavy traffic, including forklifts, while maintaining structural integrity.

This collection offers an array of wood species, including oak, smoked oak, pine, spruce, larch, and smoked larch. Each block showcases the natural beauty of wood, with raw, untreated surfaces as standard. Optional pre-oiling treatments enhance durability and aesthetic appeal. The Endgrain Collection is available in various dimensions and thicknesses, providing flexibility for tailored projects.

At the Floor Gallery, our mission statement is very simple:

We aim to provide our clients with the best products we can find.

This is for Appearance, Performance, Value for money, Healthy living and real sustainability, not the buying of carbon credits but products produced by companies with a real conscience.

We are aware that our products are not perfect, but as progress is made in production techniques and raw materials, we are getting closer to our goal.

# Special Request *AGEDWOOD OPTION*

The Agedwood effect option is available upon special request. Please contact a member of our sales team for details on availability.

## *Please Note:*

Sizes are approximate and will be confirmed at the time of order. When selecting the Endgrain Collection by Floor Gallery, it is important to understand that printed or digital samples may show slight variations in color and structure compared to the final product. These differences arise from the natural characteristics of wood and the inherent limitations of printing and screen displays.

# Unique Wood

## *CHARACTERISTICS*

As a natural material, wood exhibits certain inherent traits that add to its charm. Over time, exposure to light can cause some species, such as pine, to darken, while smoked oak may lighten. Surface treatments also influence the intensity of the wood's color. Additionally, wood naturally reacts to changes in humidity, leading to minor expansion or contraction, which is a testament to its authenticity and organic appeal.

## Sustainability & Environmental Responsibility

The Endgrain Collection reflects Floor Gallery's strong commitment to sustainability, with FSC and PEFC certifications ensuring responsible sourcing of wood. The production process emphasises eco-friendliness, promoting ecological balance and reducing environmental impact. This makes the flooring an excellent choice for projects prioritising both aesthetics and sustainability.
